

# Certificate of Analysis

ISO 9001

## Reference Material

### Product name

1-Hydroxyanthracen-9(10H)-one

### Product code

MM0137.05-0025

### Lot number

1009308

### CAS number

1715-81-7

### Appearance

brown solid

### Molecular weight

210.23

### Melting point

137 °C (dec)

### Molecular formula

C<sub>14</sub>H<sub>10</sub>O<sub>2</sub>

### Long-term storage

2 to 8 °C, dark

Assay "as is"  
96.9 %

Date of shipment:

**02 Sep 2019**

Producer confirms that this reference material (RM) meets the specification detailed on this Certificate of Analysis for **one year** from the date of shipment, provided the substance is stored under the recommended conditions unopened in the original container.

## Product information

For laboratory use only. Not suitable for human or animal consumption.

Before usage of the RM, it should be allowed to warm to room temperature. No drying required, as the certified value is already corrected for the content of water and other volatile materials.

The product quality is controlled by regularly performed quality control tests (retests).

The content of the analyte was determined as ratio of the peak area of the analyte and the cumulative areas of the purities, added up to 100 %. System peaks were ignored in calculation.

## Volatile content

### Water content

**Method**

Karl Fischer titration

**Result**

No significant amounts of water were detected (&lt; 0.05 %).

### Residual solvents

**Method**<sup>1</sup>H-NMR**Result (n = 1)**

No significant amounts of residual solvents were detected (&lt; 0.05 %).

## Final result

**Assay "as is": 96.94 %**

The assay "as is" is assessed by 100% method (mass balance) and is equivalent to the assay based on the not anhydrous and not dried substance respectively.

The calculation of the 100% method follows the formula:

$$\text{Assay (\%)} = (100 \% - \text{volatile contents (\%)}) * \frac{\text{Purity (\%)}}{100 \%}$$

Volatile contents are considered as absolute contributions and purity is considered as relative contribution. Inorganic residues are excluded by additional tests.
